

# YEAR 2 GRAMMAR AND PUNCTUATION

Hello Town fans! This activity is about grammar and punctuation. This means writing in the correct way.

Firstly, when you're writing, it is important to leave a space between words. This make it easier to read. A sentence is a group of words that are connected to a subject. A sentence is always ended with a full stop.

This activity will also work on the use of capital letters. These are used for the first word in a sentence, names of people, places, days of the week and personal pronoun's such as I. Question marks are used when a question is being asked. Are Ipswich the best team in the world? An exclamation mark is used when there is a strong feeling and raised voice. Ipswich are the best team in the world!

## ACTIVITY 4

Verbs are words that express actions (doing words). The verb tense tells us when the action took place. The two main tenses are the past tense and present tense.

The past tense means the action has already happened. The present tense means that the action is taking place now.

Can you match the past and present tense verbs? We've done the first one for you.
